

TO: OUR MERCEDES-BENZ PASSENGER CAR DEALERS

DATE: July 1989

REF.NO. MBNA 54/28

SUBJECT: OUTSIDE TEMPERATURE GAUGE REPLACEMENT
MODEL

When replacing the outside temperature gauge in the subject vehicles, the harness connector must be changed to accomodate the replacement gauge.

Remove the four 2.5 mm diameter contacts from the existing four-pole harness connector and insert them into the new five-pole harness connector as follows:

Wire Color	Position	Usage
Brown	1	Ground (and temperature sensor ground)
Grey/Blue	2	Circuit 58D from X6/1 (illumination)
Green	3	Temperature sensor (signal)
---	4	(not used)
Black/Violet	5	Circuit 15 (wire color may vary)

The new gauge may now be installed.
